Q. How large is the world-wide Society of Jesus, better known to many, as the Jesuit Order of priests and brothers?

A. Your question is a very timely one, since July 31st is the annual Feastday of St. Ignatius of Loyola who was the founder of the Jesuit Order. Today, the "Society of Jesus" numbers about 19,000 members, serving in 112 nations on 6 continents. It is currently the largest Order of priests and brothers in the world.

Their Founder: Ignatius

One year before Columbus set sail for the New World, the founder of the Jesuits, Ignatius of Loyola, was born in 1491 in what is now Spain. He was an aristocrat and a soldier, dedicated to the service of the Spanish Monarchs, Ferdinand and Isabella.

At the age of 30, he was injured in battle and, while recuperating, happened to read a book on the Lives of the Saints, which changed his life forever! After reflecting on the accounts in this volume, he decided to commit himself to continue their work for the Lord. He began by enrolling in University courses at the age of 34 and inspired a group of like-minded friends and disciples who admired and followed him.

This same group then enacted a ceremony in 1534, binding themselves to each other with vows of poverty and chastity. Three years later they were all ordained to the priesthood.

St. Ignatius of Loyola

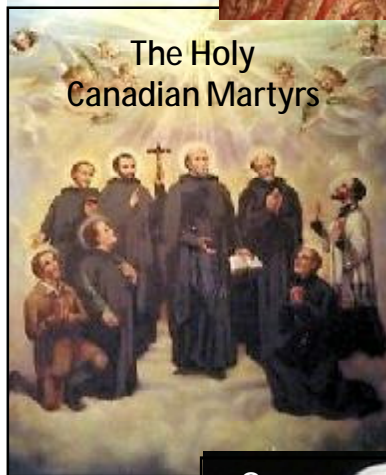

To Serve the Pope

After their ordination, this group of fervent young clerics travelled to Rome to offer their service directly to the Holy Father. They offered to teach the Catholic Faith in the universities of Europe and to preach the Gospel to the World. Pope Paul III accepted their offer and, in 1540, this new Jesuit Order, was officially founded.

Our Diocese owes the Jesuits much gratitude because:
